General flow will begin with various sun salutes and flow into standing poses, ending with floor exercises and final relaxation.

Sunrise Yoga – This class will be based on the traditional foundations of Vinyasa Yoga which are: steadiness, comfort, breath and unwavering focus on breath. This dynamically flowing practice synchronizes postures with the breath. This has sun salutations; standing asanas; twists; balances; core strengthening postures; backbends and inversions.

Yoga Fusion - static and flow postures - This class will offer poses rooted in proper alignment that you can take to the edge and beyond. Yoga Flow – gently paced breath-to-movement flow postures: accessible to beginner students

This class consists of foundation-building poses that will ease you into the discovery of your body's potential by challenging the muscles and deepening the breath. You can expect to use the teacher for a visual guide and hands-on assists.

Candlelight Yoga – This class puts meditation into motion as you let go of what was and welcome in what is to come. Alleviate excess stress and tension through restorative floor poses while fostering strength and flexibility by way of mindful balance postures integrated into a peaceful flow. Modification variations and props are incorporated throughout.

Restorative Yoga – A relaxing style of yoga that is intended to be healing and nurturing for the body.

Yin Yoga – supported floor postures - accessible to beginner students

This class works deeply into the body targeting connective tissues - ligaments, joints, bones, and fascia - rather than the muscles. Quiet and meditative, yin yoga's organic enhancement of energetic flow will draw you inward as seated and reclined postures are held for 3-5 minutes.

Power Yoga – energetically paced breath-to-movement flow postures - previous yoga experience essential

This class will sweat away the stress as you work from the core through powerful progressions that sync breath and motion. Props may be incorporated throughout to assist with the expansion of your body's ability to grow deeper in the practice.

Yoga Stasis – static standing and floor postures - previous yoga experience favorable

This class warms the body for deep stretches, challenges balance, builds endurance, and utilizes de-stressing breathwork to achieve an overall sense of balance. Repetition and ritualistic sequencing allows the expression of each pose to evolve to its greatest benefit each time you step on the mat. Props may be incorporated throughout to assist with the expansion of your body's ability to grow deeper in the practice.

HIIT Yoga – alignment-focused intense cardio workout - previous yoga experience favorable

This class unites the benefits of mindfully-aligned, endurance-based yoga postures and heart-pumping, calorie-burning High Intensity Interval Training (HIIT). Define, tighten, lift, and sculpt the glute, thigh, core, arm, and shoulder muscles. Intentional breathwork, positive focus, and a generous warmup and cooldown make for an overall good-vibe experience. Modification variations and props are incorporated throughout to safely transition the body from pose to pose.

Candlelight Flow Yoga – A flex/flow style with salutations and large muscle movements to let our bodies build up strength and heat internally followed by deep stretches to allow the muscles to lengthen and release for a longer, leaner, calmer sense of one's self.

Chair Yoga – static and gently paced breath-to-movement flow postures - accessible to beginner students

This class offers an introduction to those who - at any age - are new to yoga; people who might be challenged by limited mobility due to injury or overuse; and those who are wanting to learn how to counteract muscle tightness in the hips and shoulders that come throughout the day from long hours of sitting at a computer desk.
